

## CUSHION COIL MAT

### ANTI-FATIGUE \* IMPROVED PRODUCTIVITY \* HIGH TRACTION \* GREASEPROOF

Standing on hard surfaces subjects workers' backs, legs and feet to fatigue and discomfort. Give your employees to relief with Cushion Coil.

#### For use in:

- Production Lines
- Work Stations
- Reception Desks
- Bar Counters
- Cashier Stands
- Food Server Stations
- Food Prep Areas

Every Cushion Coil mat is covered with circular comfort zones, each with a small top coil to provide a resilient, active surface. Cushion Coil will reduce physical fatigue and promote productivity and motivation.

Cushion Coil is constructed with a slip-resistant nitrile rubber backing for worker safety and long wear. Use it wherever backs, legs, and feet need relief!

#### Surface

- Cushion Coil mats pass the requirements of the AATTC Method 134 Static Propensity Test.
- Cushion Coil is constructed with 100% nitrile rubber, so mats can be used in areas exposed to most grease and petroleum products.
- Cushion Coil mats pass the GSA commercial guidelines of the following anti-static performance tests:
  - IBM (Surface-to-Ground)
  - Burroughs (Surface-to-Surface)
  - AATTC Method 134 Static Propensity Test
- All mats meet the guidelines of the ADA

#### Borders

- Special Containment Borders trap dirt and moisture

#### Backing

- Nitrile rubber backing is slip-resistant for minimal movement on hard surfaces
- Cleaning

#### Cleaning

- Recommended cleaning techniques include vacuuming, extraction cleaning, or hosing and hanging to dry. Mats are commercially launderable.
