Classic *MATS*

ClassicSolutions

These mats combine beauty and function to produce a commercial mat that is highly effective in protecting floors from damaging dirt and moisture. They are manufactured with static dissipative solution-dyed nylon fiber, which provides superior washfastness and lightfastness. The yarn is twisted and heat-set to enhance dirt and moisture collection and to maximize product life. Designed to compliment today's interiors, these mats are offered in a wide range of attractive designer colors.

ClassicCarpets

For a clean, fresh appearance, and the most effective floor protection, these mats are unsurpassed. They are constructed with static dissipative high-twist nylon yarn that works to trap moisture and dirt.

ClassicCarpets feature a revolutionary coloring system that combines rich, dark background colors with bright, vibrant accent colors to produce a new standard in mat beauty.

ClassicCarpets feature Perma-Dye and StainStopper dyeing technologies.

With the **Health Mats Rental Program**, these mats are available for lease without any up-front investment or purchase. And mats are regularly replaced with cleaned and sanitized mats.
